Crushftp account:

Email : YVONNE@DOORNOGEL.COM

Code : hCsmkYSXWibkGebAGt/8pkr3HZHyZYfJ

Spelled Out Code : hCsmkYSXWibkGebAGt/8pkr3HZHyZYfJ

Instructions:

- 1.) Login to the WebInterface of CrushFTP, and click the Admin button to get to the Server Administration page.
 - 2.) Click on the "About" tab.
 - 3.) Enter in your registration details using copy and paste.
 - 4.) Enter the code exactly as it appears above and click OK. (The code is case sensitive! Ideally you should copy and paste it. If you can't, use the spelled out code to help prevent errors when typing it.)
- (If CrushFTP fails to recognize the info, please contact me immediately. support@crushftp.com)

Create self-signed certificate

Can you create a self-signed certificate?

I don't know how you do this normally, but I created one here: <http://makecert.com/account/login>

You can login with: sander@rb2.nl / Rb2015!@#

And view/use the certificate I created.
